

International Energy Conservation Code

The 2015 International Energy Conservation Code is hereby adopted with the following amendments.

1. The Administrative Officer is the Building Official. All hearings, variances, etc. are handled by the Building and Standards Commission.
2. In lieu of inspections by City employees, the Building Official may require a written certification that a building meets or exceeds the minimum requirements, if the certification is:
 - (i) Signed by a code-certified inspector (as defined in Section 388.02, TEX. HEALTH & SAFETY CODE) not employed by the city, and
 - (ii) Accompanied by an approved inspection checklist, properly completed, signed and dated by the inspector. If the fees of the code-certified inspector are paid by the City, the amount shall be added to the building permit fees otherwise payable. With approval from the Building Official, a permittee may pay such fees directly to an independent inspection firm. Only code-certified inspectors may perform inspections and enforce this code in the City.
