West University Place Earns Prominent Scenic City Certification

WEST UNIVERSITY PLACE, TX – The City of West University Place is pleased to announce that it has retained the Silver Scenic City Certification for the period of 2023 – 2028. Being one of only 23 cities to receive the award for this period, this designation marks the city’s third consecutive award. The city received its first designation in 2013.

The Scenic City Certification Program is a project of Scenic Texas, Inc., and its program partners. Texas cities access this diagnostic program for an objective review of existing municipal infrastructure ordinances as they relate to public scenic ordinances and public spaces. The evaluation compares the applicant city’s standards to the unique Scenic City model devised by the partnership organizations. Official certification is earned by the cities that score in the upper range and meet stringent scenic streetscape standards.

“I am immensely proud that our city has maintained its Silver Scenic City status,” said Mayor Susan Sample. “This recognition not only reflects our commitment to preserving and enhancing the natural beauty of our cityscape but also underscores the collective effort of our dedicated residents. Together, we make our city a shining example of scenic excellence.”

West University Place continues to demonstrate that it embraces a particular emphasis on its vision for high-quality municipal standards and continues to exemplify infrastructure ordinances which resulted in maintaining the Silver Scenic City status. Additionally, West U continues to incorporate best practices into its landscape ordinances, sign regulations, and green space development.
