West University Place Public Works Department Achieves American Public Works Association Reaccreditation

WEST UNIVERSITY PLACE, TX – The West University Place Public Works Department has received full accreditation from the American Public Works Association (APWA) for the second time. This accreditation formally verifies and recognizes that the department is in full compliance with the recommended management practices outlined in APWA’s *Public Works Management Practices Manual*.

Open to all governmental agencies with responsibility for public works functions, initial accreditation from APWA is for a four-year period, during which time semi-annual updates will be required to demonstrate continuing compliance. After that time, there is a re-accreditation process that builds on the original accreditation, encouraging continuous improvement and compliance with newly identified practices.

“The department has dedicated itself to continuous improvement and excellence,” said Danny Cameron, Director of West U Public Works, “This is a testament to the professionalism of our staff, whose unwavering commitment to excellence ensures residents receive the highest standard of service,” he added.

The Public Works Department was awarded its first APWA Accreditation in 2019 and is one of seventeen agencies currently accredited in the state of Texas.

The American Public Works Association is a not-for-profit, international organization of more than 31,000 members involved in the field of public works. APWA serves its members by promoting professional excellence and public awareness through education, advocacy, and the exchange of knowledge.
