Next Steps for Sidewalk Repairs in West University Place

WEST UNIVERSITY PLACE, TX – At its December 8 meeting, the West University Place City Council took the next step to improve sidewalk conditions throughout the city by awarding a contract to Queens Constructors, LLC., in an amount not to exceed \$800,000. With this approval, the city will have committed over \$1 million to sidewalk repairs this year.

The results of the bid evaluation and engineer’s recommendation determined Queens Constructors, LLC., to provide the best value based on their experience with similar projects in West U, competitive unit costs, and strong references. This project is expected to begin within the first quarter of the new year and be completed in 2027.

“Nearly every home and business in West U has access to a sidewalk, and maintaining them is essential for quality of life and public safety,” said Mayor Susan Sample. “The Council is proud to lead a pedestrian-friendly city, and it has been our priority to continue making investments that will ensure West U’s sidewalks remain safe and accessible for all.”

Earlier this year, the city was awarded a \$400,000 grant in partnership with METRO to replace approximately 2,000 square yards of sidewalk to enhance pedestrian access to public transit and amenities. The METRO Sidewalk Replacement Project has been a successful initiative in reducing trip hazards and is anticipated to be completed shortly after the new year.

The city is committed to providing ample notice to residents before work is expected to begin, and throughout this project. Residents are encouraged to sign up for [Community News alerts](#) to receive project updates by email and/or text message. This platform will serve as a key channel for timely updates.
