

Attached are the revenue and expenditure reports for the period ending **April 30, 2019**. The expenditure report shows actual expenditures as of the end of the month as well as purchase orders outstanding and compares to the annual budgeted appropriations. The explanations provided are based on the year to date amounts excluding outstanding purchase orders as purchase order amounts may contain a full year of encumbrance. The revenue report shows actual receipts recorded as of the end of the month compared to the annual budgeted estimations. In this packet, all of the City's funds are presented.

## **GENERAL FUND**

General Fund revenues have exceeded the pro-rata share of the budget at this point in the fiscal year. Property tax bills are typically mailed in November and are delinquent February 1. Licenses & Permits are above their pro-rata amount for the year. Parks fees are also above budget at this time. Municipal Court Fines are also above budget. Interest rates on investments have been increasing leading to an increase in miscellaneous revenue. The majority of the Intergovernmental revenue budget is the amount due from Southside Place in accordance with the Master Interlocal Cooperation Contract and payable in December. There has also been no FEMA reimbursement for the Hazardous Mitigation Grant Project to date.

Most departments are below their pro-rata share of the budget. The first payroll paid in January 2019 is expensed back to December 2018 since it is for 2018 time worked. Vacancies have continued primarily in the Police and Public Works departments. Expensing  $\frac{3}{4}$  of the liability insurances and the acquisition of the Rice Boulevard property in February are contributing factors for the Finance department to be above the pro-rata amount for the year.

## **WATER & SEWER UTILITY FUND**

With a one month lag due to billing in arrears, billing for consumption is below pro-rata for year. 2019 started with lingering winter temperatures and more than normal rain, reducing the need for irrigating lawns. Water usage will increase as the temperatures increase. Expenditures are below budget due to the fact that there has only been 3 month worth of utility bills expensed to 2019 and no major expenditures have occurred in construction costs, equipment or training for the year.

## **SOLID WASTE FUND**

Again, with the one month lag in billing, solid waste collection revenues are right on target for this point in the fiscal year. Miscellaneous Revenue exceeds budget due to the increase in interest rates. Overall, expenditures for the fund are slightly under the pro-rata for the period due to limited or no activity in the landfill maintenance, travel & training, community

relations, vehicle maintenance, operating supplies, and other equipment expense accounts. Expenses for those accounts are expected to occur later in the year.

## **TECHNOLOGY MANAGEMENT FUND**

Technology is integral to the City's ability to provide efficient and necessary services to the citizens. The Technology Management Fund was created to centralize those expenditures, consolidate the management of the resources needed to maintain existing systems and to deploy new solutions.

Revenues are as expected for the current period. Expenditures remain above the norm for the period due to many annual maintenance contract payments that were expensed in January as well as the annual radio subscription payment to the City of Houston.

## **VEHICLE REPLACEMENT FUND**

The Vehicle Replacement Fund finances the purchase of vehicles routinely used in providing City services. Each department makes contributions to the fund based on the estimated life and replacement cost of the vehicles it uses. The fund purchases vehicles when a combination of age and repair cost indicates the machine or vehicle has reached the end of its service life; therefore, the expenditures patterns do not follow the pro-rata model. To date, 3 police vehicles have been purchased, an F-150 for the Public Works Operation department, and the refurbishing of the solid waste trucks has begun.

## **EQUIPMENT REPLACEMENT FUND**

The Equipment Replacement Fund finances the purchase of equipment routinely used in providing City services. The fund operates in the same manner as the Vehicle Replacement Fund in that each department makes contributions to the fund based on the estimated life and replacement cost of the equipment it uses. The fund purchases equipment when a combination of age and repair cost indicates the equipment has reached the end of its service life; therefore, the expenditures patterns do not follow the pro-rata model.

Due to an increase in interest rates the City is above budget in the revenues. To date, the expenses that have been incurred are for the 12 SCBA kits for the Fire department and the resurfacing of features at Colonial Park pool.

## **EMPLOYEE BENEFIT FUND**

The Employee Benefit Fund facilitates accounting and oversight for the cost of healthcare, Worker Compensation, dental plans, employee tuition, and other benefits. Vacancies across several departments have caused revenues to be below the pro-rata amount for the period. May insurance premiums were paid at the end of April causing the expenses to be slightly above the pro-rata amount for the period. Also, payment was made to the executive search firm that was assisting in the search for a City Manager.

## **DEBT SERVICE FUND**

The Debt Service Fund is established by ordinances authorizing the issuance of general obligation bonds and Certificates of Obligation. The City uses debt financing to fund large capital investments. Streets, drainage, water and wastewater systems are all constructed with borrowed funds. Property tax dollars do not finance all of the City's bonded debt service. The Water and Sewer Fund also provides funds to repay debt. Funding the 2019 debt service payments requires an ad valorem tax rate of \$.12403 per \$100 of assessed value in tax year 2019, a decrease of \$0.00063 per \$100. Debt Service payments are due semi-annually on February 1 and August 1. Principal and interest is paid February 1 and interest only is paid August 1. The payment of the bond principal and interest made in February is what makes the expenditures above the pro-rata for this period.

## **CAPITAL PROJECT FUNDS**

Capital Project Funds are used to account for the purchase or construction of equipment, property, and buildings. These funds are usually created to account for a single project or a related group of projects and are closed when the projects are completed. West University Place has 3 active capital project funds. They are the Capital Project, Transportation Improvement, and Water & Sewer Capital Funds. Again, earnings on investments revenue are above projected budget due to the increased interest rates. Expenses incurred to date in 2019 are for roadway repairs, Buffalo Speedway Project, Virtual Gate Project, Kilmarnock retaining wall, Public Works parking lots, and WWTP Master Plan study.

## **SPECIAL REVENUE FUNDS**

Special Revenue Funds are created to account for the proceeds from specific revenue sources that are restricted to expenditures for specific purposes. The City has 10 active Special Revenue Funds in 2019. Not all expenditures can be anticipated enough to include in the original budgeting process. Budget amendments, if necessary, will be made at year end to reconcile any affected accounts. The majority of the revenues are above the pro-rata for this period. The only large expenditures to date are for physicals for Fire personnel, the transfer from the Metro General Mobility Fund to the Transportation Improvement Fund, and the purchase of trees for the annual tree planting program.
