

The City of West University Place Emergency Management

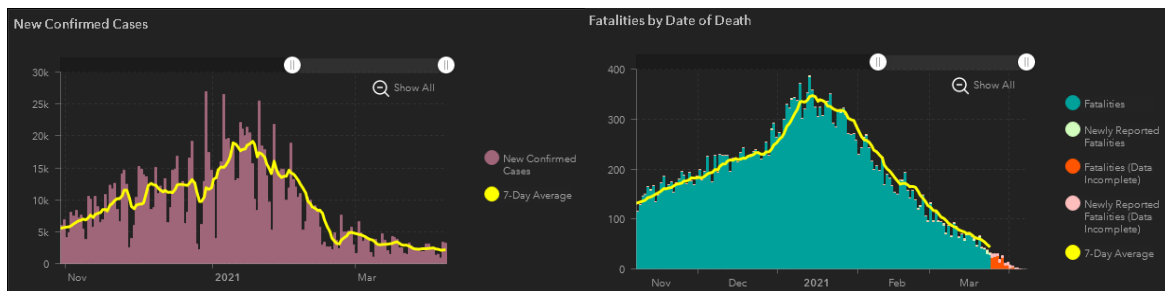

A Neighborhood City

Council Update – April 8, 2021

- COVID Hospitalizations for TSA Q was 6.93% as of 04/06/2021. The rate last dropped below the 15% threshold on 02/09/2021.

- In Texas, 3,285 new cases were reported on 04/07/2021.

- Positivity Rates: Texas 5.73% , Harris County- 8.4%, TMC- 5.2%
- TMC is reporting the ICU's status to be at 80% capacity of combined phase 1 and 2 capacities.
- Harris County Public Health data indicates West University to have 572 total "Confirmed Cases", 10 "Active Cases", 559 "Recovered Cases" and 0-5 "Deaths". Harris County and City of Houston have merged their data bases and the number of deaths now shows a range of 0-5. The City of Houston is now obscuring the deceased data field with a range to "protect individual's privacy".
- Vaccine data indicates that 29.3% of Texans have received at least a first dose of vaccine and 16.9% have been fully vaccinated against COVID-19.
